# See the Story™

Game

## Instructions

Learn How to Play!

[go.funko.com/SeeTheStory](http://go.funko.com/SeeTheStory)

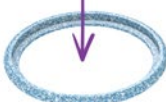

Ages 4+  
2-4 Players  
20 Minutes

**Contents:** Wishing Well with Spinning Bucket, 4 Disney Princess Boards, 4 Player Tokens, 36 Coins (with rings and inserts), Instructions

# Set Up

- 1 The first time you play, pop the coin inserts into the rings, as pictured.
- 2 Each player takes a Disney Princess board and a player token (  ). Place the board in front of you—it doesn't matter which side is face up.
- 3 Place the Wishing Well in the center of the play area within reach of all players. Spin the bucket to its starting place so you can see 7 empty spots in the well.
- 4 Mix up all the coins and stack them in the bucket until it's almost full. It doesn't matter what sides of the coins are face up. Place the extra coins in a pile near the well.
- 5 The oldest player will be the first to spin the bucket.

# Object

Collect coins by finding story matches in the Wishing Well. Be the first player to get 4 coins in a row (up and down, across, or diagonally) on your Disney Princess board to win!

# How to Play

On each turn, one player takes a coin from the pile, drops it in the bucket, and spins the bucket in a complete circle to fill all empty spots in the well with coins.

Then **ALL PLAYERS**, including the player who spun the bucket, race to find two Story coins in the well showing characters or objects from the same Disney Princess story. For example, the apple and Doc from Snow White. When you think you've found a story match, toss your player token into the well! If your token was the first to land in the well, point out the two coins you think are from the same story.

## If you are correct

(see back page to check), collect one of those Story coins and put it on a spot of your board showing the Disney Princess whose story it matches. Drop the other coin in the bucket. If all the matching Disney Princess spots of your board have been covered, put the coin on any spot you want!

**Now everyone takes back their player token. The next player drops a coin from the pile in the bucket, spins it, and all players look again!**

If your token didn't land in the well or bounced out, grab it and toss again!

If your child has trouble tossing, players can agree to slap the table instead.

## If you are incorrect,

each other player, starting with the player on your left, chooses one Story coin in the well to collect and puts it on a spot of their board showing the Disney Princess whose story it matches. If none of the Story coins left in the well match a Disney Princess on their board, they don't collect a coin.

If it's your turn to spin the bucket and there is still a story match in the well, you may toss your token in the well instead of spinning. Only the player whose turn it is may toss their token before the well is re-filled with coins.

## No Matches

If nobody sees two coins from the same story, the player who spun the bucket chooses one Story coin in the well to collect and puts it on a spot of their board showing the Disney Princess whose story it matches.

## Enchanted Coins

The gold coins are enchanted! Any time you collect a Story coin on your Disney Princess board and there is one or more Enchanted coins in the well, you also get to take one Enchanted coin and put it on any spot of your board. You only take one Enchanted coin for each Story coin you collect.

## Ending the Game

When a player gets four coins in a row (up and down, across, or diagonally) on their Disney Princess board, the game is over and they win!

## Gentle Game

For a gentler game, or a calming bedtime game, try one of the following changes to the rules:

- Only the player who spins the bucket can look for a story match.
- If a player is incorrect, they choose any two coins in the well to drop in the bucket and a new turn begins. The other players do not collect any coins.
