

# THE COLLECTOR'S TOWER INSTRUCTIONS

1-4 PLAYERS • AGES 6+

The Twilight Sword has landed inside The Collector's Tower on Battleworld, and it could be the key in the fight against Thanos! But getting it is a challenge, as The Collector's Tower is full of surprise twists!

## SETUP

To add The Collector's Tower to your Battleworld game, set up the game as usual, following all instructions included with your Battle Ball or Mega Pack.

Before adding Battles on the first turn, add The Collector's Tower to Battleworld.

- 1 Place The Collector's Tower on top of the face-up Twilight Dragon Battle Card.
- 2 Place the Twilight Sword Stand on top of the tower and attach The Collector to it.

- 3 Place the Twilight Sword Die on the platform at the bottom of the tower.
- 4 Place The Collector's Tower Card nearby.

The first Battle Card you add must touch at least one side of The Collector's Tower.

## WHEN YOU ATTACK

Every time your Hero attacks at any Battle, see if you can knock the Twilight Sword Die free from The Collector's Tower. Roll your attack by doing the following:

### TWIST!

- 1 Twist the dials on The Collector's Tower to any positions you want.

### DROP!

- 2 Drop the Attack Die\* into the top of the tower. If it comes out the door marked with the **X**, finish your attack as normal using the number you rolled.

\*Attack Die not included. Battle Ball or Mega Pack required to play.

Retrieve the sword!

Finish the attack.

## TO RETRIEVE THE TWILIGHT SWORD

If the Attack Die knocks the Twilight Sword Die free from The Collector's Tower, the attack hits! Do the following:

- 1 Remove The Collector from the Twilight Sword Stand. Attach the attacking Hero to the stand. Then place them on the next open space on the Hit Track, as normal.

- 2 Place The Collector's Tower in front of the player who retrieved the Twilight Sword. The revealed Twilight Dragon Battle Card counts as any other Battle Card.

**NOTE:** You do not have to retrieve the Twilight Sword to win the game.

## THE POWER OF THE SWORD

For the rest of the game, the Hero on the Twilight Sword Stand rolls the Twilight Sword Die instead of the Attack Die every time they attack. Roll the Twilight Sword Die by dropping it in The Collector's Tower.

- If you roll , your attack hits AND you advance two spaces on the Hit Track, if possible. It doesn't matter what door the Twilight Sword Die came out.
- If the Twilight Sword Die comes out the door marked with the , the attack hits, no matter what you rolled!

### CONTENTS:
