

Snow Parade Game

INSTRUCTIONS

Ages 3+ • 2-4 Players

Set Up

- 1 Place all of the tiles in the middle, where everyone can reach them.
- 2 Place the six Character tiles face up in a line to the right of the Home tile, in order from 1 to 6 (the numbers are on the backs). This is the parade!
- 3 Separate the cards into two piles by the numbers on the backs (1 or 2). Shuffle each pile.
- 4 Place the number 1 pile of cards on top of the number 2 pile. Then place this single deck on top of the Home tile.
- 5 Each player draws a number of cards based on the number of players. **Place your cards face up** so all players can see them.
- 6 Mix up the Parade tiles and place them in a face-down pile. Flip one tile face up.

2 Players: three cards each
3-4 Players: two cards each

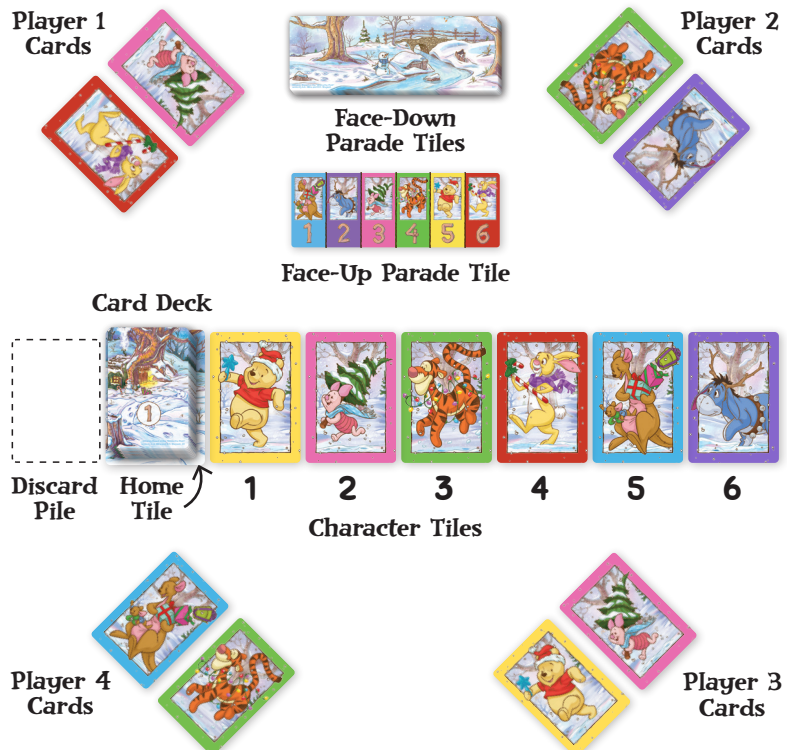

The youngest player takes the first turn.

Object

This is a cooperative game—you will all win or lose together! Play cards to move or swap the order of the Character tiles in the parade. If you can complete a goal number of Parade tiles without running out of cards, you all win the game!

See **Winning the Game** for easy, medium, and hard goals.

4-Player Set Up Example

On Your Turn

Starting with the first player and going clockwise, you can do **one** of these three actions on your turn:

Move a Character: Play a card to move the matching Character tile FORWARD or BACKWARD one spot in the parade.

A Character tile at the front of the parade can only be moved backward, and a Character tile at the back can only be moved forward.

EXAMPLE

Swap: Play a card and choose another player to also play a card. Swap the spots of the two matching Character tiles in the parade.

EXAMPLE

Discard: Discard your cards and draw two new cards from the deck (or three new cards in a two-player game).

Christopher Robin: The Christopher Robin card is wild and can be played as any character.

End of Turn: If you played a card, draw a new one from the deck. If another player helped you swap, you each draw a card.

If the deck runs out, keep taking turns until players have no cards left to play.

If all Character tiles in the parade match the order on the current Parade tile, you complete it! (Set it to the side.) Flip the next Parade tile face up.

Winning the Game

The number of Parade tiles you must complete depends on the difficulty you choose to play:

For an easy game:
Complete **three** Parade tiles.

For a medium game:
Complete **four** Parade tiles.

For a hard game:
Complete **five** Parade tiles.

If you complete the goal number of Parade tiles before you run out of cards to play, all players win!
