## Object

All players work together to decorate the tree! Play as a team to place all the ornaments—and **don't let the big red ornament fall off!**

## Game Setup

If the tree is bent, straighten it. Then take the big red ornament and hang it from the tip of the tree. (The tree will bend a little.) Place the die and three star ornaments off to the side. Keep the remaining ornaments where all players can reach them.

## Placing Ornaments

On your turn, you can place any ornament that is not on the tree. **You cannot touch the tree!**

The bottom branches can hold up to **five** ornaments each. The top and middle branches can hold up to **four** ornaments each (see below).

### TOP AND MIDDLE BRANCHES

2 ornaments max.

1 ornament max.

1 ornament max.

### BOTTOM BRANCHES

2 ornaments max.

1 ornament max.

1 ornament max.

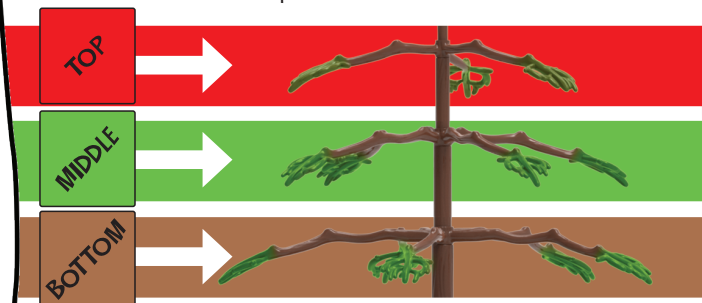

1 ornament max.

If an ornament falls off, you must place it again on another turn.

**If the big red ornament falls off, the game is over.**

## On Your Turn

The youngest player goes first. Roll the die, then choose one ornament and place it on the level you rolled:

**Star ornaments:** If you don't like your roll, you can choose to place a star ornament on ANY LEVEL instead.

**Then it's the next player's turn—pass the die to the left!**

## Game End

The game ends if the big red ornament falls off, or when all ornaments are on the tree. Count how many ornaments you placed and check your score below!

### Ornaments placed:

**0-9** Good grief!

**10-13** Not bad at all, really.

**14-17** A nice tree!

**18** Behold!
